SUSTĀNE® COMPOST TEA BAGS

Why compost teas?

There are multiple benefits to using compost teas. More than supplementary nutrients, compost teas deliver humic substances that can act as biostimulants and active microorganisms that can contribute to nutrient cycling and the ecology of a healthy soil.

Using compost teas may reduce the need to apply pesticides. Many reports indicate that compost teas increase plant tolerance to biotic and abiotic stresses, reducing the need for other inputs.

Make an enriched compost tea for superior results. Sustāne's CT Standard 4-6-4 provides all the essential components of effective compost teas and has been proven to support improved plant growth. Once brewed, it blends well with Sustāne's Hi-N 12-0-1 WDF to make an enriched compost tea with superior characteristics!

Sustāne 4-6-4 Compost Tea bags come in two sizes, single use 21-gram size for watering cans, or to be used as Root Zone Feeder Packs and reusable organic cotton bag 5 lb. compost tea bags, which each make 50-100 gallons.

Compost Tea is simple to prepare. Add two 21 gram tea bags per gallon (42 grams), or a 5 lb. Compost Tea Bag per 50-100 gallons (190-380 L) of water, aerate and steep for 24 to 48 hours at 60° - 85° F (10° - 25° C).

Aeration during the brewing process increases the level of active microorganisms in the Compost Tea ▶

◀ A reusable Sustāne 5 lb. 4-6-4 Compost Tea Bag

21 gram 4-6-4 Compost Tea Bags can also be used as Root Zone Feeder Packs ▼

- Adds a well-balanced mix of plant essential nutrients, humates, and beneficial microorganisms
- Easy to use liquid organic fertilizer supplement: no fuss, no mess, no measuring
- Beneficial microbes in the tea convert nutrients to plant available forms when added to soils and can help protect plants from pests and pathogens
- Increases yields when applied to soils, particularly under hot and dry conditions

Compost Tea Bag Guaranteed Analysis

Total Nitrogen (N).....	4%
0.4% Ammoniacal Nitrogen	
0.4% Water Soluble Organic Nitrogen	
3.2% Water Insoluble Organic Nitrogen*	
Available Phosphate (P ₂ O ₅).....	6%
Soluble Potash (K ₂ O).....	4%
Calcium (Ca).....	4%
Derived from aerobically composted turkey litter, feather meal, and sulfate of potash.	
*3.2% slowly available nitrogen derived from aerobically composted turkey litter and feather meal	

Also contains non-plant food ingredients:

Contains 50,000 Colony Forming Units (CFU's) per gram of the following species:

<i>Bacillus amyloliquefaciens</i>	10,000 CFU's per gram
<i>Bacillus subtilis</i>	10,000 CFU's per gram
<i>Bacillus pumilus</i>	10,000 CFU's per gram
<i>Bacillus licheniformis</i>	10,000 CFU's per gram
<i>Bacillus megaterium</i>	10,000 CFU's per gram

**KNOWN WORLDWIDE FOR SIMPLY THE BEST...
...NATURAL FERTILIZER & SOIL BUILDERS!**

The most convenient, fast and dose-controlled way to feed plants.

No measuring, no special equipment, no waste. Your plants receive the even feed slow release nutrients over time as needed. The Sustāne 4-6-4 Root Zone Feeder Packs feed plants up to 4 months.

Designed for dual application for the avid organic gardener, this permeable fertilizer pack can be left to steep in a watering can overnight to make a Compost Tea brew for a soil-drench application; or planted in the soil or potting mix as a Root Zone Feeder Pack when potting.

▼ Feeder Pack Directions:

Place into the root zone of potted or bed grown plants at planting or re-potting time. Use to improve transplant success of perennial woody plants.

Benefits of Natural Organic 4•6•4 Sustāne® Root Zone Feeder Packs

- For use with all types of flowers, trees, and shrubs
- Conveniently feeds plants in pots and outdoor beds
- Easy to use liquid organic fertilizer supplement
- Feeds and activates beneficial microbes that improve nutrient availability to plants
- Promotes healthy soils which may suppress soil-borne diseases and pathogens
- Permeable biodegradable paper filter packets
