

SUSTÅNE®

FOUNDATION™

BIOTIC SOIL AMENDMENT

A biologically active hydro-seeding media for soil building, erosion control, and revegetation applications.

Easy-to-apply seedbed amendment for rapid seed germination and vegetative establishment. FOUNDATION soil building media stays where it's applied, is rich in organic carbon, vital plant nutrients, and healthy microbiology to replenish depleted soils.

Ingredients in FOUNDATION provide specific benefits for application adhesion, seed germination, seedling establishment, and ongoing plant growth.

- FOUNDATION holds the seed application in place, improves soil structure, and porosity creating an ideal seed germination and rooting environment
- Contains 4 species of endomycorrhizal fungi for enhanced water and nutrient uptake by plants
- Aerobic compost provides soil beneficial microorganisms for improved nutrient cycling and ongoing plant growth
- Rich in organic carbon for depleted soils
- Amino acids help produce chlorophyll which leads to quality photosynthesis
- Contains biochar to promote biological activity and improve soil quality
- Increases plant mass 400% over untreated control
- Easy application - mixes readily with water, seed, and flows smoothly

Application Rates:
To be applied with a hydro-seeder.

Mix 1:1 ratio of Suståne Foundation with water in hydro-seed tank.

Apply 4000 lb. per acre. Add Suståne natural or organic fertilizer as recommended by project engineer based on available site soil tests and seed based on project specifications.

Adjust based on project specifications.

FOUNDATION applications may be augmented with Suståne Fertilizers.

Suståne Fertilizer Options

Adjust based on soil tests and project specifications.

Suståne 2-3-3 Concentrated Compost:

Application rates vary between 1-3 tons per acre. Mix with water solution at a ratio of 2 lb. Suståne Concentrated Compost to 1 gallon of water 1 ton per 1,000 gallon tank.

Suståne 4-6-4 All Natural Organic:

For 44 lb. of N per acre apply 1100 lb.
For 88 lb. of N per acre apply 2200 lb.

Suståne 5-2-4 All Natural Organic:

For 44 lb. of N per acre apply 880 lb.
For 90 lb. of N per acre apply 1800 lb.
For 130 lb. of N per acre apply 2600 lb.

Suståne 8-2-4 All Natural Organic

For 44 lb. of N per acre apply 550 lb.
For 90 lb. of N per acre apply 1100 lb.
For 130 lb. of N per acre apply 1700 lb.

Composition	Peat, coir, wild rice hulls, biochar, aerobic compost, plant-based tackifier, amino acid, and endo-mycorrhizae.
pH	6.5
Moisture	< 15%
Organic Matter	> 85%
C:N	< 35:1
